DETAIL ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as following:

In the claim 1, line 12, delete insert –the-- before "light".

The above noted amendment has been added in order to correct a typographical error in claim language.

Remanks

Inserting "the" into line 12 of claim 1 is needed to improve clarity of the claim language, especially since the specific light mentioned makes a direct reference to the output beam. The examiner has exercised her liberty to accommodate this correction in light of the minor nature of the amendment without altering the scope of the invention.

Reasons For Allowance

- 2. Claims 1-12 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach constructing a jewelry display box with a built in LED projecting light toward an optical diffuser and onto a display screen in the manner as required by independent claim 1. The remaining dependent claims 2 12 have been found allowable by virtue of their dependency on the allowable independent claim 1.
- 4. The prior art made of record and not relied upon is considered pertinent to applicants'

disclosure. Wetherell et al. (US Pat. 1,851,746) teaches to construct a container for fine jewelry but fails to include an LED displaying device with the overall combined structure such as required by independent claim 1.

Correspondence

Any comments considered necessarily by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
